

VCE subjects delivered online: Enrolling with the VVLN in 2025

Information for schools

WHAT IS THE VICTORIAN VIRTUAL LEARNING NETWORK?

The Victorian Virtual Learning Network (VVLN) is an initiative of Bendigo Senior Secondary College (BSSC) to develop and deliver innovative, interactive, instructional online VCE subjects to secondary school students across Victoria.

Over the past decade, VVLN has successfully delivered VCE subjects online to more than 2500 students in 130 schools providing opportunities for students to access VCE subjects not available at their home school and schools to maximise financial and teaching resources to improve opportunities for all students.

FEATURES OF THE VVLN

The VVLN incorporates a number of features to ensure students receive the instruction, support and feedback essential to their successful completion of the VCE subject.

- Subjects are delivered via the internet using the VVLN Moodle learning management system.
- Delivery of all subjects is asynchronous providing flexible timetabling for schools, allowing students to access their subject at any time.
- Online lessons are entirely instructional and incorporate learning resources including video, audio, text, simulations, and high levels of interactivity, monitoring and feedback.
- Students receive individual support and direction through regular online contact with their teachers via Web-ex.
- At least once during the school year VVLN teachers visit each school for face-to-face meetings with students.

VVLN SUBJECTS

In 2025 the VVLN offers:

BUSINESS STUDIES

- Accounting 1-4

SCIENCE

- Chemistry 1-4
- Physics 1-4
- Psychology 1-4

MATHEMATICS

- Maths Methods 1-4
- Specialist Maths 1-4

'I am currently doing VCE Chemistry 1-2 and Maths Methods 1-2 with VVLN. I find this opportunity an overall positive experience because I can do the subjects I need in a school where it is not available at current time. From completing these two subjects I became confident in aspiring into veterinary science and feel I have a great connection with both my teachers. Each week I have WEBEX calls with them to see how I'm going with the work and if I have any inquiries.

On the website, the Moodle used to watch set videos and upload work is a perfect layout. For future students, I would highly recommend VVLN, as they welcome any students across Victoria to learn online and encourage students to do their best!

KEY DATES

14 OCTOBER 2024

EXPRESSIONS OF INTEREST due

17 OCTOBER - 19 NOVEMBER 2024

Individual school's expression of interest confirmed by the VVLN. Student enrolment process occurs.

18 NOVEMBER 2024

Orientation and induction for students and liaison staff. Course delivery commences.

29 JANUARY 2025

VVLN school year begins

ENROLLING WITH THE VVLN

The VVLN takes enrolments directly from schools.

Schools that would like to enroll students with the VVLN for 2025 are invited to complete an **Expression of Interest** nominating the number of student places required in each VCE Course.

Click on this link to register: [EXPRESSION OF INTEREST 2025](#)

COST TO SCHOOLS

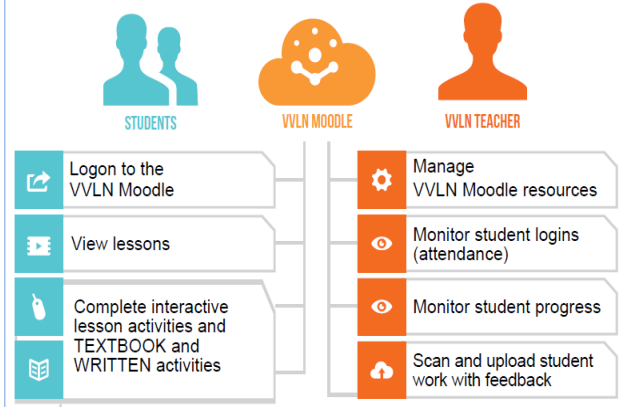

The cost for each subject covers the whole school year. In 2025 each student undertaking a combination of school based and VVLN online studies will need to be dual enrolled by their home school and counted as a part time student at 0.2 SRP at BSSC for each subject studied with the VVLN.

REFUND POLICY: Once a student has been enrolled and payment made for a VVLN subject, BSSC does not have the capacity to refund schools as staffing costs are put in place at the end of the previous school year.

HOW DOES THE VVLN OPERATE?

SUBJECT DELIVERY

The VVLN Moodle website is the hub of all online learning. Here students have access to their online subjects. The VVLN teacher monitors student progress through the lessons, quickly identifying potential issues and provides regular feedback to students and schools.

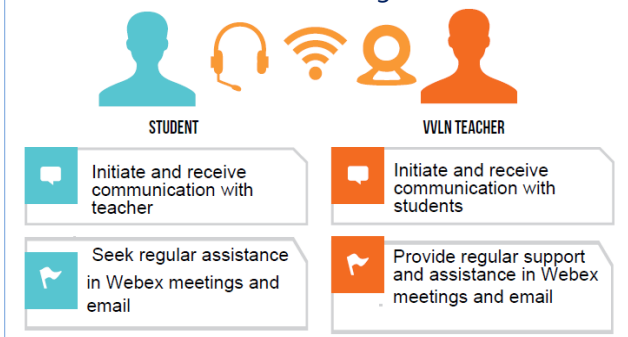

'I started out studying Specialist Maths 1-2 with the VVLN, and thoroughly enjoyed the flexibility that came with my learning and straight forward nature of the website. This led me to study Specialist Maths 3-4 and Physics 3-4 in 2024 through VVLN. My teachers are readily available and very supportive of my learning. Online learning helped me create good study habits and flexibility to run alongside my extracurricular activities. I have thoroughly enjoyed my experience with the VVLN and I would recommend it to anyone.'

Fletcher Good
Echuca College

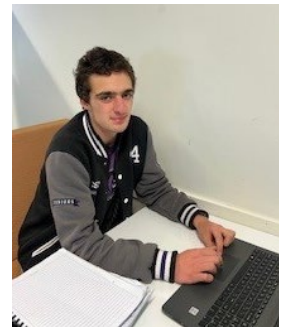

COMMUNICATION

All students are allocated a VVLN subject teacher who manages and directs their learning through the online subject. The VVLN teacher and student regularly connect with each other over the internet via Webex meetings, and email.

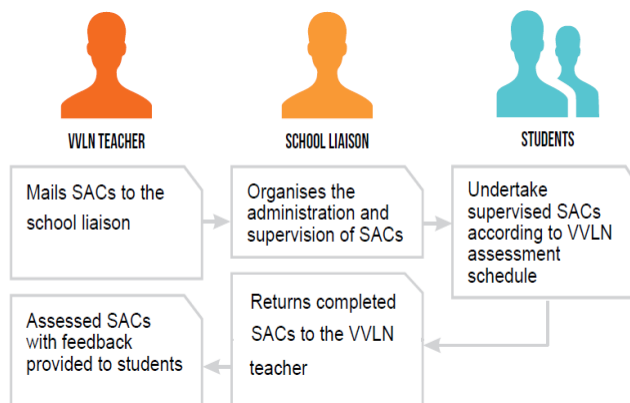

'Over the past two years I have been studying VCE Accounting and Maths Methods online with the Victorian Virtual Learning Network. The teachers are helpful and provide any support you require. The course is easy to follow with clear labelling on when work is due. It is a great way to learn these subjects.'

Dean Gavens
Colac Secondary College

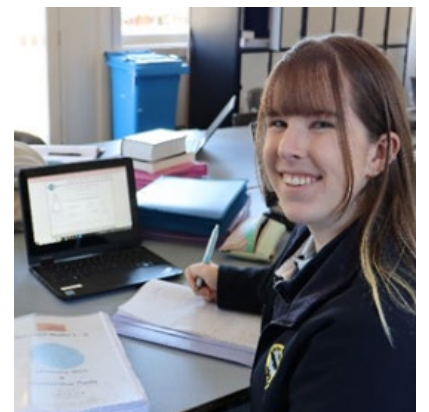

ASSESSMENT and REPORTING

All School Assessed Coursework (SAC) tests and exams are completed in hard copy, and conducted in accordance with VCAA assessment guidelines. The VVLN teacher provides regular reports to students and schools on all aspects of student progress.

'I'm currently studying Specialist Maths through VVLN and it has been perfect for me. Lessons consist of a combination of videos you watch and fill in 'seminotes' about, textbook questions you complete on your own and a weekly online meeting with a teacher to help you with any problems. The ability to pause lessons when you need a moment, go back and rewatch things if you don't understand but also talk to a live teacher every week is amazing. It's like your own personal class and teacher just for you. I really think I'm doing better than I would've in an in person class because of this. It is a great way to learn these subjects.'
